Diag.1

29-32 All turn partner with right hand, second couple at the top return to first place, while first, third and fourth couples join hands with partners to make arches

33-38 Second couple turn with the right hand and the lady leads her partner under the arches to the bottom of the set

Repeat from new places, but the 2nd time, the couple at the bottom of the set on bar 33 (i.e. the original third couple), turn left handed and the lady leads under the arches to the top of the set

Leading under the arches is therefore done by second couple from the top, third couple from the bottom, fourth couple from the top, first couple from the bottom.  
Second and fourth turn right handed, third and first turn left handed.
