

COVID safety guidelines

for RSCDS London classes and dances

- We ask attendees to
 - keep up to date on any vaccinations offered
 - ideally, take a lateral flow test before coming
 - bring your own hand sanitiser and use in between dances
 - maintain social distancing when not dancing
 - leave if you feel at all unwell
 - notify us if you test positive within 2 weeks of attending a London Branch event
 - bring your own water/flask
 - pay via card or online if possible (cash will still be accepted)
- We will
 - keep halls ventilated
 - keep a list of attendees and contact details via signing in forms or similar
 - display test and trace QR codes where appropriate
 - notify everyone promptly if a fellow attendee subsequently reports a positive test
 - accept contactless or online payment for classes
 - provide hand sanitiser in case people forget their own

We have tried to balance safety with freedom to dance but would be grateful for your support with the following additional constraints

- Stay away if you
 - feel at all unwell
 - have had a positive lateral flow or PCR test
 - are subject to a legal requirement to quarantine or isolate
- Food
 - no food during classes
 - refreshments during the New Season dance will be served in individual portions
- Class limits
 - the initial Park Walk classes will be capped at 32 dancers.
 - Park Walk dancers are asked to pre-book online. [Link here](#)
 - other classes have sufficiently large halls to permit ease of spacing

Dancers are responsible for their own well-being including at the event and travelling to and from the event. All dancers must also consider the well-being of others. Before attending an event, dancers should check the latest government guidance on Covid-19 which can found [here](#).
